<b>Prerequisite</b> Introduction to Payments Players and Regulatory and Network Requirements	38 minutes	This session will focus on the payments foundation including the entities responsible for regulating, processing/settling and developing rules for the different payment collection system. In addition, this session provides attendees with an understanding of each payment network including ACH, Debit Card, Wire Transfer and Checks. This module is required for all certificates and certifications as it helps individuals obtain a working knowledge of the overall requirements for participation in each payment collection system.
Understanding the Identity Theft Red Flags Rule	55 minutes	This session will focus on the Identity Theft “Red Flags” requirement to perform a “Red Flags” risk assessment. This regulation requires among other things that a financial institution monitor for evidence of identity theft and report to the Board of Directors annually the results of the risk assessment. In addition, this regulation requires a financial institution have proper responses to “Red Flag” situations as well as other requirements which must be met to comply. Attendees will learn: <ul style="list-style-type: none"> <li>• Best business practices for performing the “Red Flags” risk assessment</li> <li>• How to ensure the effectiveness of the risk assessment, and</li> <li>• How to determine usefulness of current policies and procedures.</li> </ul>
Mobile Security Threats	51 minutes	Over the past decade, mobile phones have become one of the most powerful and ubiquitous technologies for banking. Today, there are billions of individuals dependent upon mobile phones for their financial needs and more companies are becoming dependent upon mobile devices for the acceptance of payments. This session will focus on the regulatory expectations of accepting payments via the mobile device and how financial institutions are taking these requirements and applying them in their daily business strategy and information security plans.
Mitigating Elderly Financial Exploitation in Payments	52 minutes	The financial industry loses millions of dollars annually to fraudsters that use the elderly community to perpetrate fraud through check cashing, money mule events, and the utilization of their bank accounts for other funds transfers allowing fraudsters the ability to mask the fraud and escape the crime. This session will take attendees through the fraud issues at hand and provide best business practices for identifying, notifying and reporting these types of events to mitigate the risk of elderly financial exploitation abuse.
